CemBR Global Compendium (CGC™) is a trading name of Cement Business Advisory Ltd (CBA).

## 2021 UPDATES

Major markets series:

# Nigeria

## Nigeria - 2021 quick update

Nigeria has experienced an uninterrupted consumption growth since 2017. 2021 was another strong year registering a close to 10% consumption growth over 2020. As a result, per capita in 2021 reached its highest in the last decade, despite significant population growth.

Imports to the country remained at very low levels (this has also been a six-year trend). At the same time, exports increased significantly to around 700,000 tonnes. Still, exports form a small part of the overall country production (around 3%).

Mid-2021: BUA Cement completed the third line at Kalambaina cement plant (3.0 million tonnes cement capacity). The line was officially inaugurated in January 2022.

Mid-2021: Dangote Cement completed a new 3.0 million tonnes cement plant at Okpella.
