2022 UPDATES

Major markets series:

Saudi Arabia

Saudi Arabia - 2022 quick update

The economy performed exceptionally well in 2022, with an 8.7% growth rate in real terms, pushing GDP per capita over 30,000 US dollars. Both figures are the highest observed in the past decade. Inflation decreased slightly to 2.5%.

The cement sector stagnated despite the highly elevated overall economic activity. Consumption and production dropped by 2.3% and 1.5%, respectively. While no cement was imported, exporters dispatched 1.8 million tonnes, about a quarter more than in 2021.

A total of 21 grey and 3 white cement plants were operational in 2022, with Southern Province Cement controlling the largest share of capacity. Clinker imports remained flat YoY (at a very low level) whilst clinker exports saw a minor increase.
